Job Analysis Survey – One Position

INSTRUCTIONS

Information gathered by this survey will be used to create a Performance Model to represent job suitability for a particular position.

As you complete the survey, draw upon your resources such as a written job description or knowledge of/ experience in the job. Consider the job itself, not what a person who does the job might be like.

Use the following definitions to differentiate between the terms rarely, occasionally, and frequently.

RARELY A task performed infrequently (or not at all) that is not a key part of the job	OCCASIONALLY A task performed weekly to daily	FREQUENTLY A task performed every day as a key job function
--	---	---

To complete the survey, read each statement and relate it to the particular job. Decide whether the quality, skill, or activity applies to the job and choose the appropriate response.

Remember, your response should apply to the work required by the position, not the qualities of any person doing the job. **THINK JOB, NOT PERSON.**

Be realistic. Respond in terms of **acceptable job performance standards, not in terms of a “perfect” employee.**

When entering the results from this survey into the computer, use

1 for RARELY

2 for OCCASIONALLY

3 for FREQUENTLY
